Over One Hundred Units in Parade Handled By One Man

By THE OFFICE BOY

Well sir, I spent a lot of time last Saturday getting my bike all decorated up for the parade. I was mighty excited too I tell you, because it was the first parade I'd ever been in, and I figured I'd cop the first prize easy!

Well anyway, when Sunday after noon came around I hopped on my bicycle and rode down to Robinson's ball field where the parade was to form. When I got there I forgot all about trying to win the prize, because what I saw was over 100 units ready to start.

And leading the parade with music was the crack Wadley post, VFW No. 468 of Aurora, which pepped up the whole parade.

I tried to talk to the man responsible for the whole parade, Norval K. Robinson, but when I would start to talk to him he'd say just a minute, son, and he would dash off to one of the floats. Finally I hopped on my bike and started chasing him, but I couldn't catch up with him. Sometimes he would be way up by the VFW hall and the next thing I knew, he would be back on the ball diamond. Finally I got so tired running after him that I stopped to save my muscles for riding in the parade.

But if it hadn't been for Norval Robinson doing the work he did for weeks ahead of time whipping the parade lineup into shape Homecoming people wouldn't have seen that grand mile-long colorful goings on.

And I'd like to right here and now present Norval Robinson with one of Walter Winchell's orchids, and I'll bet there's three thousand others who saw it who want to give him whole bouquets too.

C. U. Later.

P.S.: I'll bet my last pencil that I know who the parade chairman will be next August at the Homecoming. Anyone that can do such a good job as he did, surely deserves the thanks of the whole village.

Homecoming Edition Omitted Some Facts On Village Progress

Monday morning, on checking over the Homecoming special edition, we found that we had omitted a Homecoming greeting advertisement by one of the real old timers here, Al Braun, who has been in business in the same spot for 46 years, was one of the first business men to give us an ad for the edition.

To Mr. Braun, the "village blacksmith" we extend our humblest apologies, and this article will show Homecomers that you certainly did not forget them.

Also, in the rush of things getting out the special edition we failed to mention a few of the newer business places in Mokena. One is Tony Dina, Mokena's new barber, who is building his new shop on Front street. Another is the Mokena Wood working Co. on Wolf road on the north side of Mokena. There is also the Low Cost Homes, Inc. of Berwyn, who are building some fine new homes in the Bartlett subdivision on Wolf road. However, an article appears about their homes in this issue.

Then, too, one of the newer merchants, very active in the Mokena Business Men's association, is the Ronan Radio Center on Front street. Dennis Ronan has gained a reputation for himself around this area as a television repair expert and we're told that if Ronan Radio center can't fix it, it simply can't be fixed.

If we've forgotten any more businesses who have helped Mokena to progress, we hereby apologize and hope that next year we have many more new businesses to crow about. See you next Homecoming in August, 1951.

SEEK CHANGE IN LAWS TO COMBINE AND CENTRALIZE TOWNSHIP SCHOOL OFFICES

Louis F. Bottino, county superintendent of schools called a meeting of county treasurers and trustees at the court house, Joliet, Wednesday afternoon, Aug. 16. Nearly every township in the county was represented.

Mr. Bottino emphasized the responsibility of these officers in the handling of the school funds which now total nearly ten million dollars as compared to 2½ million 11 years ago. He said that besides keeping an accurate systematic account of the money; it is the duty of treasurers and trustees to investigate any expenditures by the directors that seem to be of questionable need. In case of continued over-expending, they may report to the county superintendent and if it seems advisable, he should consult the State Superintendent of public instruction.

It was also stressed that the bond

Copy of Petition on N. L. School Problem Available to Readers

Because of the great concern being expressed, pro and con, in the recent petition for detachment of the New Lenox non high school district and addition to the Joliet high school district, and in response to many requests we have obtained a copy of the petition.

This photostatic copy will be available in the News-Bulletin office in Mokena to anyone desiring to study it.

County Superintendent Bottino to whom the petition was addressed has set the date as of September 9 for the election requested in the petition. Voting that day on the issue will be both Joliet and New Lenox voters, and the voters in each territory must favor the plan in order to have it carry.

Corporation Starts Building Homes In Mokena Subdivision

A small home priced within the reach of the average budget is the goal of LOW COST HOMES, INC., a Delaware corporation, with offices at 2713 So. Ridgeland Avenue, Berwyn, Illinois. Bartlett's Sunny Acres subdivision just outside the limits of Mokena has been chosen as the place to attempt to put into reality the company's dream of a truly low cost home.

Mr. Herdlicka, manager of the enterprise, and Dominic DeRose, president of the company, say that the object of the corporation is similar to that of the late Henry Ford when he built his low priced automobile. "Give more housing at a lower profit and thus make just as much in the end as the high-priced builder while aiding more people" is the byword of the concern.

The homes will be four room frame, ranch type houses with a small utility room and an attached garage. They will have no basements, but will have a concrete slab floor covered with asphalt tile throughout the living quarters. Heat will be supplied by means of forced-air through ducts encased in the floor from a centrally located oil burning furnace.

The kitchens will have modern cabinet sinks and wall cabinets. Off the kitchen will be the small utility section, in which will be placed the hot water heater and a Bendix semi-automatic washing machine. The bathroom will have plastic tile and modern plumbing fixtures.

Two bedrooms and a spacious living room with a very large picture window complete the living quarters. The walls will be of foil-backed sheet rock covered with a sand finish Mar-L-Cote. Rooms will be painted or papered to suit the buyers in most cases. The foil-backed sheetrock will provide insulation against heat and cold.

The exteriors will be of California redwood siding stained with creosote. The creosote stain will preserve the wood, as well as make the exterior easy to maintain. Asbestos shingles will be used for roofing. The windows will be "Coco" steel windows. The kitchen window will be about fifty-three inches long and over three feet high.

Unless or until the cost of materials forces a raise in price the homes will sell between \$6500 and \$6750 plus the cost of the land and well. Lots, averaging from slightly over one-half acre to around 2.3 of an acre will cost from \$600 to \$850. An approved septic system will be included in the price of the houses.

Former Frankfort Man Dies in Joliet

Henry F. Stettin, 68, a former business man of Frankfort and Joliet, died Friday, August 18, in St. Joseph's hospital after a short illness.

He was born in Frankfort and lived there for 54 years, lately making his home in Joliet. He owned and operated the grain elevator in Frankfort and in 1917 sold it to the Frankfort Grain company. Following that he was in the general merchandise business with Charles Scheer for 19 years. After disposing of this business he moved to Joliet where he was an active partner in the O'Brien clothing store on Van Buren street until 1940.

The deceased was an active member of St. John's English Lutheran church in Joliet and societies connected with the church. His widow operates the "Nurses" register in Joliet. Beside her he is survived by a daughter, Mrs. Marie O'Brien, a sister, Mrs. Christina Elchenberg of Frankfort, and a grandson, Michael O'Brien. His wife was the former Leonore Lambrecht of Frankfort.

The funeral services were held Monday afternoon at the Sonntag funeral home in Joliet with the Rev. W. J. Boldt officiating. Burial was made in Pleasant Hill cemetery at Frankfort.

2 Winners Nosed Out In Fishing Contest

There were two changes in the past week in the Tinley Park Hardware's fishing contest.

Alice Hoogervorst entered a 5 oz. perch, nosing out Wayne Goble's 2½ ounce.

In the bigger fish class Robert Ogden entered a 14 lb. 3 oz. Robert Matz. Bob caught his fish in Crane Lake, Minn.

N. L. EDUCATOR RESIGNS FROM SURVEY COMM.

John Oster, superintendent of the New Lenox schools, in a letter to Lawrence Kohl, at Mokena Monday, resigned as a member of the committee to study the non-high school problem in this area.

This committee was chosen this spring by the school boards of New Lenox, Frankfort, and Manhattan townships. Mr. Kohl is chairman of the committee.

Mr. Oster indicated he was doing so as a protest against the action of the New Lenox petitioners who requested two weeks ago Louis F. Bottino, county superintendent of schools, to call an election within 30 days, to vote on the issue of New Lenox township joining the Joliet Township High school district.

We are publishing Mr. Oster's letters to the New Lenox school districts which he was chosen to represent on the committee. Following are the letters:

New Lenox, Ill.
August 18, 1950

Mr. Lawrence Kohl
Mokena, Illinois
Dear Mr. Kohl:

This is to advise you that I am notifying the clerks of all New Lenox school districts that I wish to resign as their representative on the committee chosen by them in the meeting held at New Lenox some months ago. This committee was to study the problem created by the coming abolition of our non-high territory and the establishment of future high school service. You are probably aware that action has been initiated in our township by petition to the County Superintendent to call an election on the issue of New Lenox becoming a part of the Joliet Township High School district. I believe that the petitioners knew that our committee was functioning and accordingly find myself in an embarrassing position. I feel that I have no alternative than to resign from the committee.

This committee, consisting of yourself as chairman, Mr. George Bovee of Manhattan, Mr. Al Krusemark, Jr. of Frankfort, Mr. James Dickson of Lincoln Estates, and myself as representative of New Lenox, was chosen to study the problems and make recommendations to the school boards of the three townships. I feel that this committee has not been negligent of its duties, that it has functioned, but that it is not yet ready to make sound recommendations to the people of the area. However, since certain people in New Lenox Township have seen fit to disregard our position, I feel that I can no longer devote my time to community service when it is not appreciated. My duties as superintendent of the New Lenox Grade school are quite heavy and my only concern in the high school matter was that of any other citizen. I felt that my professional background might have been of some value to the thinking of the committee, but since my New Lenox friends do not seem to care for the result of our study, I believe that any more time which I devote to it would not be appreciated locally.

I assure you that it has been a pleasure to work with you and the other gentlemen on the committee. I believe that the course of action, which you as chairman, outlined for the committee was prudent and in line with the best democratic procedure. I am very sorry to resign from the committee but I believe that you and the other gentlemen will understand my position.

Sincerely,
JOHN OSTER

The following letter has been sent to the School Directors of New Lenox Township:

New Lenox, Ill.
August 18, 1950

Dear Sir:

Several months ago in a meeting held at the New Lenox Grade School for the purpose of studying the problem of what this area should do to solve the problem created by the act of the Illinois legislature in dissolving all non-high territory in Illinois by July 1, 1953, I was chosen by the board members of the New Lenox School districts and their representatives as a member of a five-man committee to investigate possible solutions and make recommendations to the people of our township. As all school boards of New Lenox Township had been invited to this meeting and since most of them had representatives present, the other committee members and I felt when we were chosen to serve that we could be of service to our community and accordingly accepted the responsibility.

This committee has been functioning. It has been trying to get necessary data on which to make

Autumn Tri-Annual

The autumn tri-annual meeting and flower show of the Will County Club League will be held in the First Congregational church in Lockport, on Friday, September 22. Fifteen clubs comprise the League with a membership of approximately 500.

The present officers are Mrs. Paul Cozine, president; Mrs. Alfred Emile, vice-president; Mrs. Everett Friddle, secretary and Miss Ida Harrington, treasurer.

The speaker of the afternoon will be Mrs. John Jennings of Joliet.

Horseshoe Severely Injures 2-year Old

Patsy Ann Kellogg, the two year old daughter of the Ward Kelloggs, suffered severe injuries Sunday when she attended the Kellogg family reunion held at the home of Mr. and Mrs. C. E. Kellogg in New Lenox. About 2 o'clock in the afternoon, during a game of horseshoes Patsy Ann who had been sitting on Miss Martha Kern's lap, suddenly jumped down and darted to her father, and before anyone could stop her she was in the way of a flying horseshoe. It struck her a glancing blow and caused severe skull injuries, a bad cut and a fracture so deep that it showed a dent in the bone.

Nancy's father rushed with her to the office of Dr. Janette Holt, who took her at once to Silver Cross hospital for surgery. Two specialists from Chicago were called and she was also attended by Dr. Gordon Snider with Dr. Holt. The small victim's right side was paralyzed but it is now reported that she is expected to completely recover barring complications. This is her fourth bad accident this year. She lives on South Adella street in Joliet.

Other members of the family who attended the reunion are Mrs. Gladys Merrifield, Mr. and Mrs. Cleo Farver, Mrs. Emil Ross and children and Lee Brisher, all of Geneva, Mr. and Mrs. Stanley Worth of Wilton Center, Mr. and Mrs. Edward Smith and family of Aurora, Mr. and Mrs. Jack Kellogg and son Richard, of Chicago, and Mr. and Mrs. Herbert Kellogg of Joliet.

Huge Crowd Attends P.M.A. Dis. 13 Picnic

A very large crowd attended the picnic given Monday at Hammill Woods by the District 13 of the Pure Milk association. Charles Cosgrove, of Chicago, secretary of the PMA spoke on the uncertainty of milk and butter prices in view of the large amount still on hand in storage. Wayne Churchill, Will county farm bureau adviser, also gave an address. A musical program was presented by Joyce Kilmar, an electric guitar. Shirley Heber on the piano and Nancy Sidowski.

After a basket lunch at noon there were races, contests and a baseball game. Free ice cream, pop and chocolate milk were served to the crowd. The oldest member of the PMA still shipping milk is Edward Leopold, 78, of Plainfield. The youngest is Bruce Trotter, 12 years old, of Mazon, and the member with the largest family is Otto Wischover, of Frankfort. Howard Klett is the director of District 13.

White-Ludwig Vows Spoken in Lockport Church August 12

St. Joseph's church, Lockport, was the scene of the wedding of Shirley Mae White, youngest daughter of Mr. and Mrs. Lee White of Lockport, and Robert Ludwig, son of Mr. and Mrs. Lawrence Ludwig also of Lockport, on Saturday afternoon, August 12 at 4 o'clock.

The bride was attended by her two sisters, Mrs. Ray Boland, mother of honor, and Mrs. Charles Braun, maid of honor, and by the groom's sister, Cheryl Ludwig as flower girl. The groom chose as his friend, Bernard Brown of St. Paul to be his best man and Edward Ludwig as usher. The bride was given in marriage by her father.

Mrs. Edward Kellenbach played a program of bridal music; the ceremony was performed by the Rev. Frank Rausch, pastor of the church.

The bride wore a colonial creation of frosted white organdy over taffeta. The pointed bodice was form fitted, high necked with Peter Pan collar, cap sleeves with which she wore long lace mitts. The full skirt had a long train and her lace trimmed finger tip veil was held in place with a sequin decorated tiara. She carried a bouquet of white baby mums and stephanotis.

Mrs. Boland and Mrs. Braun wore similarly styled gowns of scarlet net over taffeta and carried white colonial bouquets. The little flower girl wore white net over taffeta and carried a small white basket of flowers.

Mrs. White chose a navy crepe gown and hat with white gloves and a red corsage for her daughter's wedding, while the groom's mother was dressed in powder blue with pink accessories.

A bridal dinner was served to the immediate families in the Rose Room of Louis Joliet hotel, at 6 o'clock and a reception for nearly 200 guests was held at Gooding Grove hall in the evening. Misses Betty and Joyce Ludwig, sisters of the groom, cut and served the wedding cake.

When the young couple left for a week's auto trip through the southwestern states, Mrs. Ludwig was wearing a suit with navy skirt white jacket and navy and white accessories.

Upon their return, they will live at 58 Vista Lane, Plainfield.

DELORES MINGER- DALE KROHN TO BE MARRIED SEPT. 10

Miss Delores Minger, daughter of Mr. and Mrs. Herbert Minger of Frankfort, and Dale Krohn, son of Mrs. Ella Krohn of New Lenox, will be married Sunday evening, September 10, at 7 o'clock in St. Peter's Evangelical and Reformed church in Frankfort.

MOKENA VILLAGE BOARD REPORTS WATER SUPPLY IS NOW GOOD

*Special Meeting of Board Tuesday Night
Names Source of Contamination*

OPENING DATES ANNOUNCED FOR AREA SCHOOLS

MOKENA

Mokena and Frankfort have engaged new men teachers who will instruct in physical education and teach classes in the upper grades. It is the first time in six years that the Mokena board has appointed a man teacher.

The teaching staff will include Mrs. Elizabeth Cappel, principal, who will teach English and mathematics in 7th and 8th, Robert Sleight, of Joliet, social studies, 7th and 8th, and physical education to boys in the fourth grade and up Mrs. Hilda Sehmman, of Joliet, 5th and 6th; Mrs. Ruby Wheelley, Lockport, 3rd and 4th; Mrs. Mary Leeton, Lockport, 2nd and 3rd and Mrs. Margaret Clark, Joliet, 1st grade and music throughout the school. Robert Sleight is a graduate of Carroll college, at Waukesha, Wis. As the building program progresses, and the enrollment of pupils increases additional teachers will be engaged.

School will open September 1, a 9 a.m. starting with registration of pupils. Anyone having second hand books to dispose of should bring them that day. All book stores have the books which were on the list sent home with the pupils when school closed.

FRANKFORT

The Frankfort public school will open September 1, with registration of all pupils at 9 a.m. The book sale will be held from 10 a.m. to 12 noon. The new teacher engaged this year is Robert Stadt of Beecher, who will instruct in physical education and teach upper grade subjects. All of the other members of the faculty have been re-engaged.

NEW LENOX OPENS
KINDERGARTEN

A kindergarten is being opened at New Lenox this fall for the first time and children are eligible to be enrolled September 5 if they will reach the age of 5 years before December 1, 1950. All entering are required to have a birth certificate and to have a physical examination before October 1. The school board opened the kindergarten because of the unused classroom in the new Oakview school. They plan to keep it in operation as long as the room is not needed for other classes.

The kindergarten will be operated in two sessions, 9 a.m. to 11:30 a.m. and 1:00 p.m. until 3 o'clock. At midyear the groups will be reversed. It has been difficult to find kindergarten teachers and it may be necessary to change some of the other grades and have one of the teachers with kindergarten training take the newly organized groups.

SCHOOLS AT NEW LENOX

New Lenox schools will open on September 5 and parents of all children entering the first and fifth grades of the New Lenox public schools are being advised again to be sure that their children have the physical and dental examinations which are required by state law. Children will not be enrolled unless proper evidence of these examinations is submitted. All doctors and dentists are supplied with the proper forms by the Will Co. Health department.

First grade children are also required to present birth certificates. First graders must be six before December 1, 1950 and kindergarten-ers must be five.

Lists of the textbooks to be purchased by New Lenox school children will be mailed to parents this week. The list will be the same as that of last year. As has been true for the last few years, publishers' prices have increased so the cost of some books will be somewhat higher.

The PTA will again handle the sale of books on Friday, Sept. 1 and on Tuesday, Sept. 5. Anyone who has used books to sell may bring them to the Haven school any morning next week from 9:00 to 11:00. A PTA committee will price the books before the sale date. Experience has shown that most books brought in before the sale date are sold. A sale fee of 5c per book is charged by the PTA.

Frankfort Guild to Give Garden Party

The Woman's guild of St. Peter's Evangelical and Reformed church of Frankfort will hold their regular monthly meeting in the church parlors Thursday, August 31 at 2 p.m. The devotions will be led by Mrs. Christ Reckheimer. The program will be in charge of the missionary department.

In the evening they will have a garden party on the church lawn and the public is cordially invited to attend. Refreshments will be available. A volley ball game will be played between Frankfort and Manhattan and there will be other entertainment.

MOKENA BOY RECEIVES
STATE APPOINTMENT

Richard Kreml, son of Mr. and Mrs. George Kreml of Mokena has just been appointed to the office of state orator by the Illinois Grand chapter of the Order of De Molay. In addition to this office he has been elected by the DeMolay members to serve as senior steward.

The village of Mokena water supply has been declared safe to drink, according to state health department tests. Although the storage tank has been given three treatments of chlorine to clear up contamination, the state health department men have advised against constant chlorination of the village water.

After exhaustive tests made by state, county health departments and village officials, the source of contamination is now known. A statement issued by the village board after a special meeting Tuesday night, said:

"The consensus of opinion of the state and county health departments and the village board is that contamination is largely getting into the mains through cross connections in village residences between private cisterns and village water connections.

"This condition exists through faulty valves, especially if the cistern system carries a higher pressure than the village water department. A good many cities have ordinances prohibiting these connections, and we are rapidly taking steps to enact an ordinance prohibiting them in the village of Mokena.

"However, we hope our own local people will remove these cross connections as soon as possible.

Prior to the routine inspection by village and county officials, samples were taken, as they are again being taken this week to check water from outlying mains, checking contamination in outlying points of the water system."

According to state and county health boards, the village water checks perfect at both the tank and well, and it should be impressed on residents of the village that removal of these cross connections should be done at once for the protection of the public health and welfare.

Parochial School Opens in New Lenox

St. Jude's beautiful new Catholic school will open its doors Wednesday morning, September 6 according to Father Denis.

Registration will be held at the school August 31 and September 1. Any child who will reach the age of 6 before January 1 may enter first grade in September.

Books purchased by the school will be rented to the children. A tuition of \$2.00 per month will be charged for one child, the second child in a family will pay \$1.00. Additional children in one family will pay no more. Families having more than two children in school will pay \$3.00 for the family, per month. Non-parishioners sending children to St. Jude's school will pay \$3.00 per month tuition.

Sister Mary Rose who arrived from Tucson, Arizona will be principal of the school and another sister as well as a pay teacher will teach. Mr. Ward has been hired as janitor.

Well Known Couple Buy N. L. Eat Shop

Mr. and Mrs. Jack Droney of Joliet, who are well known in this area, have purchased Ozzie's Corner store in New Lenox, of Mr. and Mrs. Edward Osmus. They will manage the eating place themselves with some outside help and are giving up the restaurant on Cass street that Mr. Droney has been operating there. They plan to improve the sandwich line and serve breakfasts and other meals.

The Drones have two daughters, Geraldine, who is employed by the Santa Fe in Chicago, and Adrian who will be a junior at St. Francis academy this fall. Their many friends in New Lenox wish them success in their new venture.

Mr. Osmus will continue in the insurance business in New Lenox.

N. L. Singers to go East With Chorus

Approximately 15 members from New Lenox of the Will County Rural chorus will leave Friday afternoon on the Pennsylvania railroad, for Washington, D. C. where they will sing in a concert Saturday night. The group will return Monday morning. Members of this chorus are quite happy to be making this trip, and have proved to have a very fine chorus during their recent concerts. An account of their trip and their various concerts will be given next week.

Build Addition to New Lenox Bank

The New Lenox state bank is having an addition made to the rear of their present building. This addition will be 40 feet by 26 feet and it has been planned to house the customers' safety deposit box vault, an office and a directors' room.

The officers plan to make another addition this fall when they will extend the lobby to make it more convenient for their customers.

MOKENA CARD PARTY

The next card party to be given by the Auxiliary of the William Martin post VFW, will be Saturday evening, August 26 in their hall starting at 8 o'clock.

Illinois TAX FACTS

By George E. Mahin, Executive Secretary
Taxpayers' Federation of Illinois

Some of the cities that have been rattling their tin cups the loudest

for state aid or increased taxing power without referendum approval of the people ought to take a look at their own housekeeping. There's gold there.

The Taxpayers' Federation of Illinois has just completed a quickie look at the financial practices of one of the larger downstate cities that has been crying poverty for years.

The Taxpayers' Federation, like any other privately-operated business or any thrifty housewife, shops

around for its supplies to get the best bargains. This city, which purchases each year many times as much as the Federation, should get even better prices because of its greater volume.

Yet the following are a few examples of actual prices paid by the city compared to prices paid by the Federation for the same articles: large roll of scotch tape, \$1.28 compared to 90¢; bottle of ink, 25¢ compared to 20¢; box of staples \$1.28 as against 80¢; paper clips (10 box lots), \$1.02 compared to 80¢; rubber bands (pound), \$2.04 against \$1.80 typewriter cleaning fluid (per ounce), 25¢ compared to 14¢.

The Federation study showed that the police department was paying as much as 27½¢ per gallon net for gasoline, whereas other municipal departments in the same city bought in quantity at 19.4¢ per gallon.

The Federation researcher conservatively estimates, that at least \$24,500 could be saved annually in that city's city corporate, fire, and fire equipment funds alone by adoption of the buying practices of any prudent housewife or private business. Federation studies in other downstate cities have revealed with one exception, similar conditions.

Such waste of money is a crime not only against the taxpayers but against deserving city employees also. The police and firemen and some other employees in many downstate cities are entitled to salary increases. But they can't condemn the taxpayers for refusing to vote increased taxes when tax money is already being wasted in substantial amounts. The solution is for the employees and taxpayers to work together to find out how tax money is spent, and then to persuade the city fathers to clean house.

With America fighting abroad and at home to protect our American way of life, against dictatorship, we must stop governmental waste, deadbeat payrollers and other imprudent "politics as usual" practices, at all governmental levels. Otherwise, we will play right into the hands of the communists who are trying to weaken us not only with shooting wars but with economic war as well.

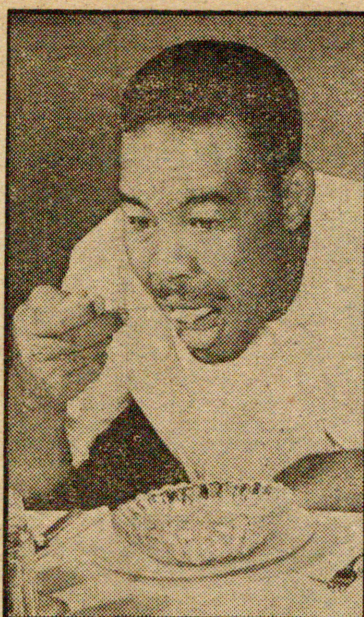

FAITH IN STALIN TAUGHT BY TRICK

In Stettin, Poland, the Communists are using sweet propaganda to discourage worship of God. Teachers tell children to pray to God for candy. But no candy comes. Then the teachers suggest the children try praying to Josef Stalin. The next day they get candy.—Pathfinder News Magazine.

Canning Warnings

The canning season for home is underway and will continue for some weeks so the Greater Chicago Safety Council is issuing a few warnings to the ladies to exert every possible precaution in order to avoid serious accidents and painful injury.

If a pressure canner or sauce pan is among your newest possessions use it according to the manufacturer's directions. Most of the accidents with pressure cookers and canners are due to faulty use. Here

TAKES TEN-COUNT — Preparing for his title fight with Ez-zard Charles in September, Joe Louis has been getting up at the count of ten—A. M., that is—for a hearty breakfast before grueling roadwork. Weighing 222 pounds, the retired champ is preparing for his come-back fight with training at West Baden Springs, Ind.

are some rules set down by the Council for safe operation:

1. Follow the manufacturer's directions exactly for care and use.
2. Keep all openings to pressure release valves, vents and to pressure gauges clean at all times. Use a small wire or pipe cleaner for this purpose. A toothpick or match stick might break off.
3. Know how each part of your cooker works. The safety features on your sauce pan may be different from those on your canner.
4. Use exactly the amounts of water or food recommended.
5. Adjust and lock the cover securely as directed by the maker.
6. Check pressure and heat frequently.
7. Wait until the pressure is at zero and until the excess steam has been released before unlocking the cover.
8. Be sure all parts are clean and in good working order.

In open kettle canning be extremely careful of contents boiling over. Do not lift heavy hot loaded kettles and use caution in carrying bulky loads from kitchen to basement. Be sure that all handles of cooking utensils are turned back on the stove out of reach of exploring hands. Use proper lifting devices to raise jars from water baths so as to avoid steam burns.

It has been proven that oven canning is one of the most dangerous hazards of the canning season and should be avoided.

The military tank which has become a major factor in the Korean fighting was developed by the British in World War I.

According to World Book Encyclopedia, the British, in order to keep the real purpose of the machine a secret, gave out the story that the huge machines were "tanks" for carrying water.

The name caught on and was never changed.

SCRIPTURE: Luke 1:46-55; 2:17-19; 40-52; Mark 3:31-35; John 2:1-12; 19:25-27; Acts 1:13, 14.
DEVOTIONAL READING: Luke 2:28-35.

Blessed Woman

Lesson for August 27, 1950

A PROTESTANT Christian is essentially a Bible Christian. Among other things, this means he will form his ideas about Bible characters from the Bible itself and not from books about the Bible, not from legends long afterwards invented.

Some Protestants seem not to realize that even a reverent book like "The Greatest Story Ever Told" is as much fiction as it is fact.

Yet Protestant Christians are sometimes inclined to go to the opposite extreme. In reacting against the tall tales, they overlook the facts.

If some Christians overdo reverence for Mary, offering prayers and incense before her statues and even going to the point of saying we cannot come to Jesus except through Mary—an idea totally false to the Christian gospel—other Christians make the mistake of neglecting her memory altogether.

Surely we ought not to forget or under-rate the woman who of all the women in the world was chosen of God to be the mother of our Lord Jesus Christ.

God Knew Her Heart

NAZARETH was a small village with no good reputation. Yet it was in that town that Mary grew to womanhood. Man looks on outward appearances, but God looks on the heart.

You might have not selected Mary for the mother of Jesus, or to put it in another way, you would hardly have expected Mary's child to be the person Jesus became. She was very young, for girls were engaged early in that climate and country—perhaps no more than sixteen. She could have had no great education. She was poor, as the whole story shows.

Yet it was not for her education or her social standing or her experience or any such thing, but because of her heart, her character, herself, that the angel came to her that spring day in Nazareth.

Mary's Song

THERE IS no room to tell all that can be known of Mary from the Gospels. We can know or guess much from that one song, the "Magnificat" as it is called from its first word in the Latin translation. (Luke 1:46-55.)

We can tell from this that she was a woman who knew her Bible. Moffatt's translation of the New Testament uses italic type to indicate quotations from the Old Testament; and in this Song of Mary, of its sixteen lines all but two are printed in italics.

Words and phrases came to her in the familiar cadences of the book she knew and loved. Further, she was of a poetic turn of mind. This "Magnificat" has been set to music and sung in churches all over the world. Since Mary was herself a poet, it is not surprising to find that Jesus often spoke in words which sing with the beauty and rhythm of fine poetry.

Patriotism and the Poor

MARY WAS A woman who loved her country. We are so familiar with the "Magnificat" as a church anthem that we overlook it actually and originally was; a hymn of praise to God for his mercies to Mary's nation, Israel.

Her people, so long enslaved, were to be set free. It is a revolutionary hymn, too. Princes are to be dethroned, the proud cast down, the rich made empty; but God will give his help to the hungry and the poor.

Mary and Jesus

LOVE OF HER Bible, love of beauty, love of her country; and most of all, love of God. You could guess this from the words of the angel, but you can see it plainly in this song. It is an outpouring of joy and thankfulness to a God who is very real and near and loved.

Every mother lives again in her sons; in Jesus we can see the manner of woman Mary must have been. When the boy Jesus called God his Father, who had taught him that word? When the young man Jesus fought off temptation by using the Word of God, who had first guided him to do this? Where had Jesus learned Scripture except under his mother's roof?

Rufe's Ramblings

By RUFÉ PICKETT

For several months of my life I was awakened each morning by a particular sounding of a bugle. For many years I have owned a Big Ben. I have repeatedly answered the call boy one hour before going on duty. After trying all these I still claim that the most pleasant

way of being notified that it's time to get up is to hear some Arbuckle coffee being crushed in a grinder fastened onto the kitchen wall. If you'll excuse a slang expression, these modern facilities ain't so hot. Of course they never have any frost on the seat, but blank paper, no matter how fine the texture, never affords the pleasure of old timers enjoyed. I never sat down in one that I didn't discover some bargains in the remaining pages of a Sears Roebuck catalog, or find something interesting which I had overlooked in the newspapers.

The expression, "Watch your step when you cross Main Street," is not new to me. We used that warning way back yonder when the stepping stones were few and

far between. There's no mud on the route which carries a volume of traffic between the east and on across the Blue Ridges, but you'd better watch your step when you cross Main street.

All passenger traffic was discontinued on the railroad that runs up to Mount Airy. No more reunions are held at the depot where we used to gather—I'd say about an hour before train time. Such inexpensive pleasures were for a by-gone age.

Last week was the Homecoming. As usual I wasn't there. I may be wrong, but I have always been afraid that if I went back to my home town it would spoil all my pleasant memories and if that happened I'd never again be able to write Rufe's Ramblings.

Flea Control Is Simple

There's no need for your farm buildings to be infested with fleas. A couple of DDT applications will get rid of them.

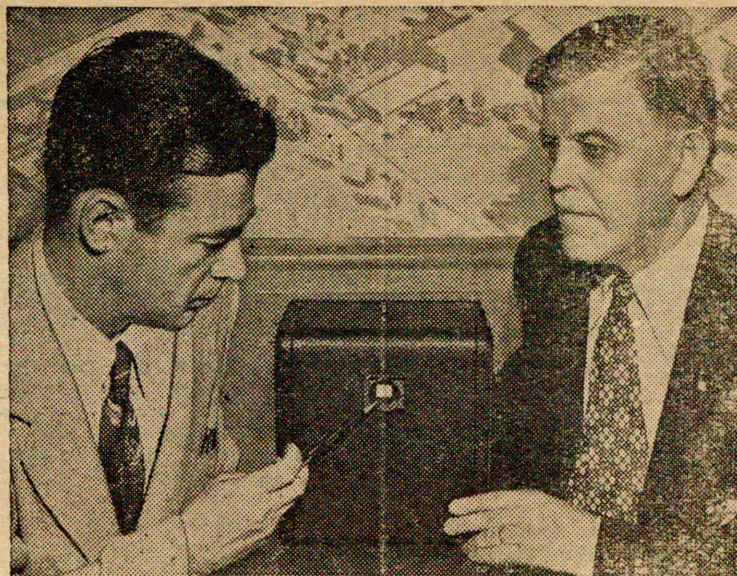

H. B. Petty, extension entomologist of the Illinois Natural History Survey, says fleas are easily carried from infested hog barns to the farmhouse on a person's clothing. Once in the house, they can really make life unpleasant.

The first step in getting rid of the pests, says Petty, is to put on a light application of DDT. Do it before cleaning the chaff and litter from the barn. That's for your own protection, and it will kill most of the fleas.

About two days after the first application, you can clean all litter from the barn with little danger of being bitten.

Next, spray the barn with DDT at the rate of one-eighth to one-fourth pound of actual DDT per 1,000 square feet of surface. The barn should be free from fleas in a few days.

These control methods will work well on all farm buildings except dairy barns. Dairy barns should never be treated with DDT, because DDT is absorbed by milk. Use lindane for a dairy barn spray.

Eye is Window to Heart—The "flicker photometer," new scientific instrument which makes the eye a window to the heart, is demonstrated here by Drs. L. R. Krasno and A. C. Ivy of the University of Illinois College of Medicine. In the hands of doctors, it is expected to help save many lives of potential heart-attack cases.

Your Eye is Window To Your Heart

A new scientific technique, which is based on the theory that "the eye is the window of the heart," can simplify early detection or diagnosis by physicians of a tendency toward development of heart disease.

This technique, known as "flicker photometry," has proven to be more than 98 percent accurate in confirming known cases of hypertensive and coronary heart trouble. In the hands of doctors, it is expected to help them save many lives of potential heart-attack victims, who heretofore had little way of knowing they were developing the disease until often too late for preventative treatment.

These findings, together with facts about the new heart-blood vessel measuring instrument called the "flicker photometer," were illustrated recently in a scientific exhibit at the convention of the American Medical Association. The new technique and instrument are the result of ten years research by two Chicago scientists, Drs. Louis R. Krasno and A. C. Ivy of the University of Illinois College of Medicine.

The apparently simple instrument is a black box with a tiny "window of light." In reality, it is a complex and accurate electrical device for producing controllable speeds of flickering light. It is capable of revealing, by measuring reactions of the human eye to a countable flicker of light, certain blood vessel conditions of the retina and the brain which appear to precede two important forms of heart disease.

Two easily administered tests are made. After first recording a patient's reaction to the flicker, a harmless nitroglycerin tablet is administered and a second flicker test taken. The interpretation of the tests simply depends on whether nitroglycerin increases or decreases the patient's ability to see flickering light. Over 500 patients have been studied in this research project at the University of Illinois. Further research is being continued at the University, as well as by several investigators throughout the country.

In addition to its diagnostic application against the nation's No. 1 killer, the Krasno-Ivy "flicker photometer" offers valuable assistance to physicians in determining the effectiveness of treatment in known cases of hypertension and coronary heart diseases.

Recent research and actual use by doctors has verified the importance of the device for real progress in the battle against heart disease. It is the first instrument able to reveal certain conditions of blood vessels of the retina and the brain, which appear to precede hypertension and/or coronary heart diseases.

It is commonly accepted that diagnosis and treatment of these two diseases can never begin too early, but diagnostic methods in general use today are of value only after the disease is further advanced clinically. The device detects this tendency at sub-clinical level, when the patient does not yet show evidence of elevated blood pressure, abnormal electrocardiogram, or any customary symptoms. It makes possible mass testing of the public by a simple and inexpensive method.

Galena to Celebrate 125th Year With Open House Event

Century-old Galena will put 125 years of Old Northwest history on parade the weekend of Sept. 30-Oct. 1 when it opens several of its handsome old houses to the public. Galena architecture is stamped indelibly with the imprint of southern iron grillwork, tall plantation pillars, and leaded and stained glass windows.

Lured by the silver gleam of lead and with fortunes made secure by the invention of the river steamer that could move at will with or against the strong Mississippi current, explorers, miners, adventurers, and sober businessmen gathered quickly at the Fevre River settlement and swelled its number to 15,000 by 1845.

Long before that its river ties with the south had led the dissatisfied planter and younger sons of Virginia and Kentucky with jingle in their jeans to try their fortunes in the new Eldorado.

Inside the homes, perched helter skelter on the palisades overlooking the town, are fine mahogany and rosewood furniture and silver serving pieces brought from England by early Atlantic Coast settlers as well as fragile gold-encrusted chairs and settees forever marked with their French-New Orleans origin.

Mr. and Mrs. Paul Francis entertained 25 guests at a picnic last week Sunday at their home. Paul John returned to Chicago with his cousin Jerry who was his house guest last week.

Mr. and Mrs. Edward Doyle motored to Cleveland, Ohio last week to visit with their son, Fr. Mel Doyle. They were guests for two days with the E. J. Maloney's at their summer home on Lake Erie.

Miss Gaillyn McCoy spent last week in Chicago with her uncle and aunt Mr. and Mrs. Brian Merrill and family.

Miss Suzanne Eriksen is vacationing this week with her aunt, Mrs. Antone Johansen in Chicago.

Mrs. LaVern Braun and daughters Nancy and Sue Ann, left by train last Friday for Jackson Mich. to spend a week with her parents, Mr. and Mrs. Ray Osmus and Beverly. They will return home the end of this week with the Osmus family, who will spend the weekend here. Karen Braun, who has been vacationing in Jackson with her grandparents for three weeks, will return home with her mother.

Mrs. Mary Bentley, who has been seriously ill in her home for the past six weeks, is somewhat improved.

Mrs. Thomas Dunn has returned to her home at Symerton after spending a few days here with her daughter Mr. and Mrs. Edward McLaughlin and family.

Sister Mary Ann, the former Rita Brock of New Lenox, has returned

to Freeport where she teaches school, after spending the summer months here at St. Francis convent. A parish dinner and pantry shower was held Tuesday night in the new St. Jude's school auditorium in honor of the Sisters who will teach in the new school.

Members of the Bluebird 4H club with their leader Mrs. Walter Hamilton attended the Chicago fair Tuesday.

Edward Brown has returned to his home in Plainfield after spending a week here with his cousin, Buster Brown.

The Will County Champion 4H Girls 3-baseball team, which is known as Ernie's Eagles, will take on the New Lenox Friendly Circle baseball team in a game to be played here on the local diamond Wednesday evening, August 30. Proceeds from this game will be used for repair work on the Methodist church.

A Waide family reunion was held Sunday at the home of Mr. and Mrs. Rolland Waide and family. The Waides are leaving about September 5 for Denver, Colo., where they will make their home. Guests at the reunion Sunday were Mr. and Mrs. Willis Virkus and family, Mr. and Mrs. Charles Waide of Onarga, Mr. and Mrs. Clarence Stum and family of Roberts, Mr. and Mrs. Lawrence Waide and family of Kankakee, and Mr. and Mrs. Frank Waide and family of Chicago.

Johnny Waide, son of Mr. and Mrs. Rolland Waide, is spending weeks with his aunt and uncle, Mr. and Mrs. Willis Virkus and family at Onarga.

The PTA Homemakers unit will meet for an all day lesson on aluminum trays, Thursday, August 24 at the home of Mrs. Walter Hamilton. Those attending are to bring their own lunch, and coffee or tea will be furnished by the hostess. Required materials to work with, two brushes, one fine and one wide, single edged razor blades, old rags, and pencils for tracing their pattern, are to be brought along to the meeting.

All 4H girls desiring to complete their 4H project by exhibit, may do so, Tuesday, August 29 at the O'Daniel Drug store window. Exhibits must be ready for display by 9:30 a.m. on Tuesday, August 29. Any members of other New Lenox 4H clubs desiring to complete in this manner may also exhibit.

Mr. Carmel Eriksen and son David accompanied the Colby Eriksen family of Wilmington, to Minong, Wis. for a week's fishing trip.

Mr. and Mrs. Hubert Bwing and family were honored at a potluck supper and going-away party Sunday when their friends and neighbors gathered on the lawn of Mr. and Mrs. Everett Merfeld for supper at 5:30. The group presented the honored guests with a purse of money as a farewell gift.

Mrs. Freda Schroeder is spending this week here with Mr. and Mrs. Earl Schroeder and family. Mrs. Hattie Pugh of Joliet spent Friday with Mrs. Clara Sinclair. Mr. and Mrs. Ralph Agate of Louisiana visited here Monday with Mr. and Mrs. Peter Sinclair.

On a Ladder, Be Careful!

CLIMBING a ladder carelessly is a good way to fall and be injured. Of course, ladders should be kept in good repair, but there is a right way to use ladders to prevent accidents.

Here are the basic rules:
Firmly set the base of the ladder one-fourth of the ladder's height from the wall.

Always face the ladder going up or down and hold on with both hands; don't hurry.

Avoid leaning too far out on the ladder. It is safer to move the ladder.

Clean mud or grease from your hands and shoes before climbing.

Tools or materials that cannot be carried safely in pockets should be hoisted with a hand line.

Avoid climbing or working on a ladder in a high wind.

Ladders should be kept under cover when not in use. Avoid using such makeshift devices as chairs, boxes or tables. Severe injury and even death can result from falls even at low levels. Inspect ladders frequently for rusted or loose bolts and nails, cracks or rotted or loose rungs or supports. Make repairs immediately or get a new ladder. That's cheaper than having an accident.

If a rung is broken, here is an easy way to replace it. Cut off the broken rung flush with the inside of each rail. Drill holes in two hardwood blocks 2 inches by 6 inches. Then fit the new rung in the holes and fasten the blocks to the rails with good sized screws, long enough to get a firm bed in the ladder rails.

Sportsmen's Girls 1st in Round Robin

Sunday evening at 5:30 p.m. the Sportsmen's Girls 12" Softball team took on the North Harvey A.C.'s on the North Harvey home field and came out on top by a score of 14 to 9.

During the regular season's play the north Harvey A.C.'s took first place while the Sportsmen's Girls finished in second place.

The South Suburban Girls' Soft-

ball League started play on June 6, 1950 and consisted of six teams. The North Harvey A.C.'s, Oaketts of Oak Forest, Matteson Lionetts of Midlothian, Midland Park, Orland Park and The Tinley Park Sportsmen.

When the Round Robin was planned the teams that finished 1st and 2nd drew a bye, while the teams that finished 3rd and 4th and 5th and 6th played one another.

In these two games Oak Forest beat Matteson 11 to 9 and Midlothian beat Orland Park 8 to 1. Oak

Forest then played North Harvey and lost 10 to 9, and Tinley Park beat Midlothian 10 to 2. This brought Tinley and the North Harvey A.C.'s together for the Championship game.

During the championship game both teams were shut out in the first inning. In the first of the second inning Tinley took a five run lead when G. Wager first up singled, J. Thrun walked, Uthe struck out, G. Thrun walked, Peterson struck out, Pokorny singled, Bettenhausen doubled, R. Wagner was safe on an error by North Harvey's shortstop, Bettenhausen scoring. Gonlag rolled out third to first. North Harvey counted one in the last of the second when Goetz first up, doubled, stole third and scored on an infield out.

In the third Tinley went down in order and North Harvey bounced back counting four runs to tie the game up.

Tinley showed their championship caliber in the fourth inning when the Sportsman Girls massed six hits with two walks for five runs to make the score 10 to 5.

In the last of the fourth Harvey collected one hit and no runs.

Tinley counted one in the fifth without a hit on two walks and an error. North Harvey's fifth was very productive when they counted four runs on two walks, two fielders choices, an error and a hit. The score was now 11 to 9 in Tinley's favor.

Both teams were shut out in the sixth inning but Tinley iced the game in the first of the seventh when five hits and an error counted three runs to make the score 14 to 9. North Harvey got one hit in the seventh but failed to score.

Although this ends the League play the Sportsmen Girls expect to book more games this season. SC watch for future announcements.—Eric Nasebandt, coach.

Tinley 16" Softball

By BEANS & PAT

I'm feeling mighty low. The Scavengers took us for a buggy ride this evening of Monday the 21st to the tune of 16 to 3. Last time we beat them 7 to 6. Better days are coming for us Methodist guys. This, coupled with miserable hay fever has really lowered the boom. My friend Pat Lloyd is going to do honors this week by slipping in some observations on how you jokers are looking as the season enters the wind up round.

As the season passes the three-quarter pole each team has something to add to the sports headlines—Cavetts, now in first place seems to have found itself at last. Ken Firchau, the hustling Pillsbury catcher, and Bob Naughton have taken the spot light in Cavett's recent victories—The Saenger team has dropped from first place, but Ken (Jones) their new first baseman, has played sensational ball—The Doughboys are crowding the first and second place teams thru the fine pitching of Andy "Bad Boy" Brown and catching of Art Lehman—The Scavengers are holding on to fourth place only because of the daring base running of Dick Brunz and the timely hitting of Jack Althison—it looks as if Brandau's will put up a tougher fight now that Bob Foster and Grover Elmore are in the line up—In last place "rests" the Methodist, but even they have rays of hope. Their fighting catcher Dick Nordstrom and the fine fielding of John Rensink promise to even make Methodists bad losses colorful.

As the teams improve the scores are beginning to get closer. These close games have made umpiring very rugged. Maybe "Hank" could stand a few words of encouragement and a few pats on the back now and then.

Thank you Mr. Pat Lloyd. Standings

WILL CO. FAIR OPENS FRIDAY AT PEOTONE

The Fair opens on Friday, August 25 and runs to Sunday, August 27. The exhibits promise to be larger than ever due to increased number of classes in both the stock and ladies departments. By popular demand from the ladies a section on weaving was added and should offer some interesting exhibits. The art department was increased to divide the amateur and professional classes because it was felt that the two should not be competing against each other.

The opening afternoon of the fair will have an exciting baseball game between the Junior Legion League teams of Peotone and Wilmington.

These teams have played in regular league competition all year and they will undoubtedly put on a real ball game. Running simultaneously with the ball game will be the ever popular society horse show which has become a tradition with the Will County fair. In 1949 nearly a hundred horses were entered with as many as twenty entered in a single class. This year a jumping class has been added which should make the program even more interesting. In the evening a society horse show will be staged with many different horses and some different classes than those held in the afternoon.

On Saturday August 26, the program is even more diversified. This is known as Democratic Day and as this is an election year, both major political parties are given an opportunity to introduce their candidates and to have a candidate for one of the major offices give a short speech. The Democrats responded with no less than Wayne F. Caskey of LaSalle, candidate for Representative in Congress from this 15th district.

Following the talk, an exciting horse pulling contest will be staged in front of the grandstand, while a softball game is being held between the Brookfield girls and the Forest Park girls.

NEW LENOX EDUCATOR—

(Continued from first page)
reasonable recommendations. We considered the matter of such great importance that we preferred to act slowly if necessary to arrive at judicious conclusions. It was our intent to eliminate as far as possible our personal preferences and narrow local prejudices in order to arrive at conclusions which would best serve the interests of all. Among other actions, we sat in conference with Dr. W. C. Reavis one of the most eminent educators of our country, and were planning on another session with him. We were interested in securing the advice of a disinterested authority. This has not been a "do-nothing" committee. However, I, as your representative, have now been placed in an embarrassing position. This week a number of New Lenox petitioners expressed their desire to the County Superintendent of Schools that he should call an election for the purpose of voting on the issue of annexing New Lenox Township to the Joliet High School District. In view of this action initiated by those whom I have every reason to believe knew that your properly delegated committee was functioning I must accordingly request that you accept my resignation as New Lenox Township representative on this committee.

I believe I owe you a report on some of the things this committee learned and considered. We believed we had three alternatives: 1. that we might join the Joliet Township High School district; 2. that we might form a community high school district of New Lenox, Frankfort, and Manhattan Townships; 3. that we might form a community district of the same area. My own preference has always been and will continue to be for the community unit. I believe that a sound educational program can be most easily obtained by a unified administration. Then too the taxpayer is better protected in a community unit. For example a dual system can bond for twice the amount which a unit district can

for building purposes. However, if our committee had adopted one of the other alternatives and if you as school directors had approved of another program I would gladly have supported it.

We know that there is a sufficient tax base to support either a unit or a community high school district in the area. As Mr. Cherry, assistant superintendent of Joliet Township High School, pointed out in a meeting in Joliet some time ago we actually have more wealth behind each high school student in this area than the Joliet district has.

Were we to set up either the unit or community high school we would have greater control of how the district is run than if we were a small voting segment of the Joliet district.

In favor of affiliating with the Joliet district we have certain facts to consider. The curriculum offered at Joliet is outstanding for its breadth. There is a strong faculty and an able administration. The Junior College program is good. However, the program does not seem to hold New Lenox students. Too large a percentage of them drop out before graduation.

The present Joliet tax rate of .764 is lower than we estimate would be needed for a community high school (.90 to 1.00). However the Joliet Board has already announced that the rate will increase .7 next year. Our committee would like to learn what the cost of the eight point improvement program listed in the Cherry report, plus the cost of Superintendent Bonar's proposed purchase of the block east of the high school for campus purposes would do to the tax rate. As a school administrator I believe the Joliet expansion program will benefit the Joliet High School but I am a bit dubious as to whether New Lenox people want to pay the price to which it will probably amount.

I thank the New Lenox Boards of Directors and their representatives for the confidence which you placed in me by naming me on this committee and regret that I feel that I can no longer be of value to the committee. I hope you understand my position.

Sincerely,
John Oster

Another Mokena Homecoming is history and I think everyone is tired but happy. In spite of the cold weather I think the crowd enjoyed themselves and will be back another year. The parade will be something to remember and try to match in years to come.

Those who enjoy dancing, have

another treat coming on Labor Day, Monday, September 4. Again that popular band, Banas Bros., will furnish the music. For a real enjoyable time, remember the date and plan now to attend.

We have some square dancers in the community, so for a beginning we are securing a good band for that kind of dance music at the Grand Opening, Sunday, September 24. Dancing will be free and everyone is invited. Come and help us with our Grand Opening.

Our regular meeting is Thursday night, August 24. This will be another important meeting. We hope the comrades will come out and take an active part in our discussions. Some day our post will make some civic contributions to this community that will make people realize that our aims are not entirely selfish. At present, we are paying for a building that in itself is a civic contription, put many more things are coming.—Eino L. Saarela, publicity.
